February 2014

Re: Town Slipway

Dear Residents,

The Town of Trinity over the years has received various requests regarding the construction of a slipway on the beach near the Courthouse. At the Council meeting on February 3 it was decided that the completion of this project would be a priority for this coming year. In order for the project to proceed though the support of businesses and residents in the Town will be required.

So how can you become involved:

1) The Town will be striking a committee of five people to oversee the project and would ask for anyone that has an interest in the matter to contact us to let us know that you would like to be involved.

The committee will be responsible to:

- come up with a design of a slipway that will have to be submitted to Council and Provincial Historic Sites (owners of the land where the slipway will be located) for their input and review;
- oversee the raising of funds for the project and;
- oversee the construction of the slipway.

2) Once the construction costs are determined the Town will determine the amount of funding that it will be able to contribute towards the project. The committee will then be responsible for seeking donations from businesses and residents to assist with construction costs as in discussing this project over the years a number of people have indicated that they would contribute towards the construction costs. All donations to the project will be eligible for a tax deductible receipt.

At this time we ask for your support and feedback regarding this project for the Town and encourage you to contact us at the Town Office through any of the means listed on the letterhead above.

Sincerely,

Jim Miller
Mayor, Town of Trinity
